Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It has been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which it basically modified me, altered the way I believe.

Aaron and Erica's Garden, her most recent publication is the result of many questions and problems with which we are faced. The book presents stories from the bible narrated in a manner pertaining to today's world. In January 1999, a few days shy of his twenty-first birthday, Christopher Michael committed suicide in a haze of depression, self-loathing, and drug addiction. He left behind a loving family, which is still trying to understand what happened to this promising young man, and why. Evocative poetry, alternated with short autobiographical vignettes written from Christopher's point of view, as if in his own voice, reveal a soul in torment, a young man who knew deep within that he was loved and who loved in return, but who was unable to trust in God to do battle with the outside forces of evil which had taken over his life. Christopher's book is not his story but his message, Choose Life! After numerous requests for a Spanish translation we have included it in this publication.
