R.S. Means Company Ltd. Hardback. Book Condition: new. BRAND NEW, Building and Renovating Schools: Design, Construction Management, Cost Control, Drummey Rosane Anderson, Inc., Joseph Macaluso, David J. Lewek, Brian C. Murphy, School projects are a big part of current and future construction activity - offering opportunities and challenges for design professionals, contractors and school administrators. This new book provides the insiders' view of the key ingredients - and costs - in successful projects that meet design, budget and schedule goals. The authors - architects, construction project managers, contractors, and estimators who specialize in school construction - provide start-to-finish, expert guidance on the whole process -- from early planning, budgeting and design, through the construction phases and the move into the new building.

This book is definitely worth acquiring. I have gone through and so I am certain that I will likely to read through again in the future. It's been printed in an exceptionally basic way in fact it is only after I finished reading this publication in which it actually altered me, changed the way in my opinion.
