

Essays on a Science of Mythology: The Myth of the Divine Child and the Mysteries of Eleusis (Paperback)

Filesize: 1.43 MB

Reviews

This publication is very gripping and intriguing. It is among the most awesome book we have go through. You can expect to like how the author compose this book.

(Dr. Malika Bechtelar II)

ESSAYS ON A SCIENCE OF MYTHOLOGY: THE MYTH OF THE DIVINE CHILD AND THE MYSTERIES OF ELEUSIS (PAPERBACK)

Princeton University Press, United States, 1969. Paperback. Condition: New. Reprint. Language: English . Brand New Book ***** Print on Demand *****. Essays on a Science of Mythology is a cooperative work between C. Kerenyi, who has been called the most psychological of mythologists, and C. G. Jung, who has been called the most mythological of psychologists. Kerenyi contributes an essay on the Divine Child and one on the Kore (the Maiden), together with a substantial introduction and conclusion. Jung contributes a psychological commentary on each essay. Both men hoped, through their collaboration, to elevate the study of mythology to the status of a science. In *The Primordial Child in Primordial Times* Kerenyi treats the child-God as an enduring and significant figure in Greek, Norse, Finnish, Etruscan, and Judeo-Christian mythology. He discusses the Kore as Athena, Artemis, Hecate, and Demeter-Persephone, the mother-daughter of the Eleusinian mysteries. Jung speaks of the Divine Child and the Maiden as living psychological realities that provide continuing meaning in people's lives. The investigations of C. Kerenyi are continued in a later study, *Eleusis: Archetypal Image of Mother and Daughter* (Princeton).
