

## The Vulcan Foundry: 150 Years of Engineering (Paperback)

Filesize: 8.05 MB

### ***Reviews***

*This written publication is fantastic. This can be for anyone who statte that there had not been a well worth reading through. I realized this pdf from my i and dad recommended this publication to discover.*

*(Maye Schoen)*

## THE VULCAN FOUNDRY: 150 YEARS OF ENGINEERING (PAPERBACK)

Amberley Publishing, United Kingdom, 2017. Paperback. Condition: New. Language: English . Brand New Book. Founded by Charles Tayleur in 1830 as a factory to produce locomotives for the Liverpool Manchester Railway, the Vulcan Foundry at Newton-le-Willows grew rapidly both in reputation and capacity. From 1832, Tayleur was partnered by the great Robert Stephenson, and over the next 138 years the factory would go on to manufacture steam, diesel, gas-turbine and electric locomotives for railways all over the world. The factory would also turn its hand to producing vital armaments during wartime. Vulcan s products could be seen all over the British Empire and beyond, in locations as diverse as Argentina, Borneo and Egypt. By the 1950s the company had become English Electric, and manufacture of locomotives ceased in 1970. Iconic Vulcan Foundry locomotives for Great Britain include the legendary Deltics, Black Fives for the LMSR, and AL6 electrics for the West Coast Main Line. This book illustrates Vulcan s role in equipping the world s railways, with its astonishingly varied output from narrow gauge to broad gauge, and from humble shunters to express passenger thoroughbreds.
