Createspace, United States, 2012. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.The problem with most personal finance and investing books is that they complicate simple ideas and contain so much detail nobody ever actually reads them. Beer Money is different. It can be read in an afternoon and presents financial concepts using something you re already familiar with: Beer. Beer Money is organized as a Pub Crawl to Financial Success. Each chapter is a clear, actionable step with guidance on financial decisions you may face. Excruciating detail such as valuation metrics for stocks, estate planning, complicated options strategies, etc. are NOT part of this book. Beer Money is written for anyone who wants the basic building blocks of personal finance and investing. You ll learn the differences between investing in stocks, bonds, real estate and commodities. You ll see how to best use a retirement plan like a 401(k), how to budget better and the importance of insurance. There are examples of different investment portfolios, automatic saving and spending plans and a discussion about the different types of investment accounts such as Traditional and Roth IRA s. The use of beer, easy to understand text and pictures (yes, pictures!) and humor make this a book you will actually read and understand. So grab a cold six pack and a comfortable chair and get started on your own pub-crawl to financial security. Cheers!.
