Xlibris Corporation. Hardcover. Condition: New. 310 pages. Dimensions: 9.1in. x 6.1in. x 1.3in. This book analyses the current situation existing in Cuba and describes in detail the real disaster caused in every aspect of Cuban life by the so-called revolution of Fidel Castro, including how it has affected the different components of Cuban society. The author gives detailed summary of the main indicators of the Cuban economy and society before 1959, when Fidel Castro took power, indicating how they compared favorably at that time with other countries of the world, including many which are considered part of the developed world in our days. The book demystifies numerous aspects of Castros propaganda that his followers have considered as great achievements of his government and puts them in perspective in regard to what Cuba could have had nowadays if it had been ruled by democratically elected governments. The book profusely documents the system of corruption and privilege established in the island and analyses the obscure role of Castro in a number of important events related to the United States, including references to his links with drug traffic, money laundry and the promotion of terrorism activities, among other criminal activities. One of the aspects the book describes in more detail is the lack of political freedom and the repression of independent thinking and free expression existing in the island, which is part of the overall control on everybody's life established by Castro, which is implemented by a gigantic machinery of terror and surveillance. The book describes the role of Cuban military and intelligence in numerous important events of world politics during the past five decades, including their role in Africa, Latin America and other regions of the world and it includes some questioning about the possible role of Castro in the assassination of President...
