Excerpt from Report of the Secretary of Agriculture, 1992 During FY 1992, agricultural exports totaled billion - the second highest on record. Developing industrial uses for agricultural commodities will create new domestic markets, raise farm incomes, meet environmental concerns, create jobs, and bring new economic activity and opportunities to rural America. Usda is in the forefront encouraging new uses. In protecting our precious environment - whether it s air, land, or water the Administration has used reason and balance for guideposts. President Bush and Secretary Madigan have directed usda, epa, and the Department of Energy to work together to assure a strong role for ethanol in the clear-fuels, clean-air programs. Voluntary soil and water conservation programs reached new milestones in 1992. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
