Reviews

*Merely no terms to spell out. We have read through and i also am confident that i will gonna read yet again again in the future. You will not sense monotony at anytime of your own time (that's what catalogs are for about should you question me).
(Pasquale Larkin I)*

THE MONTANA STATE BOARD OF ENTOMOLOGY: NINTH BIENNIAL REPORT, 1931 1932 (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Montana State Board of Entomology: Ninth Biennial Report, 1931 1932 My dear Sir: The Montana State Board of Entomology was created by an act of the legislature in 1913. The primary purpose of this board was to study Rocky Mountain spotted fever and other arcnid and insect-borne diseases of man and animals within the State of Montana, and to carry out any methods for the suppression of such diseases as might seem advisable. In eight previous biennial reports the work and accomplishments on spotted fever have been recorded. These reports constitute an important series of scientific documents and have been preserved in the important libraries of the world. This may seem to be an unwarranted use of public money. However, in this regard it should be remembered that no less than seven organizations (The American Medical Association, Harvard University, The Institute of Infectious Diseases, The Rockefeller Foundation, The University of Chicago, The University of Minnesota, and The University of Paris) with no particular interest in Montana have devoted both money and personnel toward the investigation of Rocky Mountain spotted fever. Progress has been attained through the cooperation and research efforts of the above named private institutions and many other public ones. It is, therefore, only fitting and proper that these reports be published. Science has no political boundaries and especially in the matter of public hygiene, the one human endeavor on which all countries of the world can unite with truly mutual benefit, can scientific intercourse be most advantageously promulgated. From 1913 to 1932 the Board of Entomology supported both control and investigational work in regard to ticks and spotted fever in the Bitter...
