Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Methods of Teaching Surgery This paper has been prepared at the request of the Committee on Programme, to serve as an introduction to a discussion upon the best methods of teaching surgery, and is intended to ask questions rather than to answer them. We have to consider: (1) Who are to be taught? (2) What is to be taught? (3) How it is to be taught. Those who are to be taught include two classes (I) The average medical student, who is presumably to become a general practitioner The men who wish to specially fit themselves for surgical work. There is a third class, namely, those who wish to learn only the least possible amount of surgery which will enable them to get the degree of M.D., but these we need not consider today.
