This CD-ROM and workbook package helps students and professionals pursuing a career in interior design to improve their impromptu sketching skills when working face to face with clients. The CD-ROM also contains sample sketches, videos of professionals sketching or discussing their methods of sketching, and audio role-playing features through which a client gives students directions or suggestions. A spiral bound workbook made of special paper accompanies the CD-ROM and serves as the students sketchbook. Areas in the workbook are designated for students to log their sketching times and keep track of their overall progress. The students will be able to tear out the sheets of this workbook in order to hand them in to their professors.
