

What is an Arthropod?

By Kathryn Smithyman, Bobbie Kalman

Crabtree Publishing Co, Canada. Paperback. Book Condition: new. BRAND NEW, What is an Arthropod?, Kathryn Smithyman, Bobbie Kalman, This work is for ages 6-12. Children will be shocked to learn that arthropods outnumber all other animal species combined! They will also be fascinated by the variety of shapes, sizes, colours, and behaviours found among these invertebrates. Labeled diagrams and startling close-up photography will introduce concepts including: the similarities and differences among insects, arachnids, myriapods, and crustaceans; the functions and features of an exoskeleton; moulting, metamorphosis, and other interesting body facts; the crucial function of arthropods in food chains and webs.
