Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

BREAD OVERHEAD BY FRITZ LEIBER, SCIENCE FICTION, FANTASY, HORROR (PAPERBACK)

AEGYPAN, 2009. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Leiber slyly imagines a near-future when giant machines not only harvest the wheat field, but grind flour and bake bread on the spot -- the ultimate in big farming. In this toasted tomorrow, the highly-mechanized Puffy Products is bent on producing the supremely lightest loaf. The story is what happens if bread isn't just airy, but pumped full of lighter-than-air helium. Leiber (Ships to the Stars) didn't often bake up such a soufflé of spoof, but he's a master in the kitchen. And Bread Overhead has just enough to say about human nature to be filling, besides.
