Excerpt from The Mango in Hawaii Since it has been demonstrated that mangos can be kept for at least several weeks and can be transported long distances (see p. And since the trees in these islands produce fruit in its perfection abundantly, the questions arise: Why should not the fruit be grown commercially in Hawaii and marketed on the mainland Of the United States? Why should not the better varieties be propagated more generally? There seems no greater Obstacle in the way of establishing a mango industry in these islands than has confronted orange growing in Florida and California or many Of the other horticultural enter prises which have now assumed very large proportions.
