## DIGITAL PULSE WIDTH MODULATOR

Condition: New. Publisher/Verlag: VDM Verlag Dr. Müller | Low-power, Low-Distortion, for Digital Class D Amplifier | We describe the design of a micropower digital pulsewidth modulator (PWM) for a hearing instrument Class D amplifier. The PWM embodies a novel delta-compensation sampling process and a novel pulse generator. The delta-compensation sampling process is sampled at the same low rate as reported algorithmic sampling processes and it features a similar low total harmonic distortion (THD). Its arithmetic computation is however, substantially simplified. We analytically derive the...

### Reviews

*A whole new electronic book with an all new viewpoint. Of course, it really is enjoy, nonetheless an amazing and interesting literature. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Prof. Colton Nikolaus**

*It becomes an incredible book that I have possibly read. I was able to comprehend every thing out of this created e pdf. You won't truly feel monotony at anytime of your time (that's what catalogs are for relating to should you check with me).*

-- **Alta Krajcik**
