Excerpt from Corneille s Comedies: As a Mirror of Contemporary Events and of the Theories of French Polite Society in the First Half of the Seventeenth Century Anything concerning the Great Corneille, who, according to the well-known and apt words of Voltaire, was called Great, not to distinguish him from his brother Thomas, but from the rest of men, cannot fail to be of interest by reason of his very great ness. Light thrown on even a minor production of a really eminent author helps toward our composite appreciation of him, and cannot but illuminate to some extent his other writings. Not only was Corneille the real Father of French Classic Tragedy, but he has sometimes been called the most romantic of the classic writers. The word Romantic has many meanings and conveys a slightly different concept to almost every authority who uses it, until it sometimes seems as though it only serves as a covering for a number of different theories, which may be used in turn for purposes of polemic by allies who yet differ among themselves, - just as the term pouvoz r prochain was used by the Jesuits, as Pascal so wittily tells us in his first Provincial Letter. In this case, however, I think it safe to refer Cor neille s romanticism to the spontaneity of emotion we find in some of his tragedies, - particularly to a certain egotism of love displayed by Rodrigue and Chimene in the Cid. For this reason, doubtless, Corneille was looked back to as a predecessor by the developing group of Romanticists in the early nineteenth century.
