FSG. 1 Cloth(s), 2012. hard. Book Condition: New. A student of Sigmund Freud's and a prominent research physician in the early psychoanalytic movement, Wilhelm Reich fled from the Nazis to America in 1939, and pursued his research into the theoretical animating force he called "orgone energy." This collection of Reich's autobiographical writings, drawn from his diaries, letters, and notebooks, begins in January 1948, shortly after he became a target of the Federal Food and Drug Administration, which, in 1954, burned Reich's published books and research journals. Challenging the right of a court to judge basic scientific research, Reich was imprisoned in March 1957 and died eight months later; the texts here reveal his determination to protect his life's work. 273.
