A new and innovative volume, the Blackwell Handbook of Education is both authoritative and accessible. It will be an invaluable companion and reference source for professionals and parents, student teachers, headteachers, governors, in schools and colleges, lay inspectors, and local politicians and others. It covers a wide variety of topics in A to Z format: education (concepts and issues, disciplines, types and phases); schools and others institutions and their organization; roles (duties and responsibilities) and people; regulations and conditions, individual differences among learners; curriculum and assessment; pedagogy; and resources.
