

## Don't Drink A1 Milk !!: The Type A1/A2 Milk Issue and the BCM-7 Peptide . the Devil in the Milk

By Brent G Bateman

Brent Bateman, United States, 2011. Paperback. Book Condition: New. 201 x 135 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Don't Drink A1 Milk !! is an expose of the potential health hazards of drinking Type A1 cow's milk, and the implications for the dairy industry, government, and, most importantly, the consumers. We now know that Type A1 cow's milk genetically differs from the original A2 milk, and can generate the casomorphin peptide, BCM-7 . the devil in the milk. The BCM-7 molecule can attach itself to the insulin-producing beta cells in the pancreas, prompting an autoimmune destruction of the beta cells, leading to diabetes. It is a strong oxidant, and can oxidize LDL cholesterol, contributing to plaque build-up in the arteries. It is also a powerful morphine-like opiate, and can pass through the blood-brain barrier, promoting neurological disorders such as schizophrenia and autism. The evidence is credible and compelling, and cannot be ignored. Our dairy industry has decided not to confront the enormous implications to their status quo, and does not want you to know about this issue. Our various governments and regulatory agencies have chosen to bury their heads in the sand...

### Reviews

*This written publication is wonderful. It really is loaded with knowledge and wisdom You will not really feel monotony at at any time of your time (that's what catalogues are for relating to if you ask me).*

*-- Desmond Becker*

*Absolutely essential go through publication. I am quite late in start reading this one, but better then never. You will not feel monotony at at any time of the time (that's what catalogues are for regarding if you ask me).*
