AN INTELLIGENT VERTICAL HANDOFF DECISION ALGORITHM

An intelligent vertical
handoff decision algorithm
An Algorithm for heterogeneous networks

LAP Lambert Academic Publishing Apr 2014, 2014. Taschenbuch. Condition: Neu. Neuware - The next generation wireless networks (NGWN) should be compatible with other communication technologies to offer the best connectivity to the mobile terminal, which can access any IP based services at any time from any network without the knowledge of its user. It requires an intelligent vertical handover decision making algorithm to migrate between technologies that enable seamless mobility, redundant best connection and minimal terminal power consumption. Currently existing...

Reviews

Great e-book and beneficial one. I am quite late in start reading this one, but better then never. You may like how the author publish this ebook.
-- **Mr. Alexandro Lemke MD**

It in a of the best publication. It really is rally intriguing throgh reading through period of time. You will not feel monotony at anytime of your own time (that's what catalogs are for relating to in the event you request me).
-- **Dr. Pat Hegmann**

It in one of my favorite publication. It is among the most awesome publication i have go through. I am just quickly will get a delight of reading through a published publication.
