AuthorHouse. Paperback. Book Condition: New. Paperback. 392 pages. Dimensions: 8.9in. x 5.9in. x 1.1in. Within the reader is provided with enlightened versions of selected and some even beloved segments of the Bible that have been previously either translated based on Semite legends, (due to the fact that at the time of translation those were the only historical references available, ) or considered unknowable. The creation of the universe, earth, and humanity are presented in a manner that falls closer in line with the historical and archeological record as known today, instead of being based on ancient legends and fairy tales. Elements of the Book of Exodus, with passages concerning the 10 commandments and the role of Jethro in the establishment of a democratic form of government, provide the reader with new origins for the judicial and representational branches within our own form of government. The unknowable elements of the Book of Job, concerning the Lords reply to Job in the last few chapters of the book, are presented in a manner that not only suggests that it is indeed knowable, but also reasonable and logical as well, providing a description of the universe and earth that belies the level of knowledge available to humanity at its inception. Certain controversial passages of the New Testament are addressed, such as the Magi, the intent behind the Feast at Cana, and Mary Magdalenes true role in Jesus life and ministry, and this is followed with an interpretation of the symbolism found within the Book of Revelations. All in all, the author provides the reader with a new and different take on certain elements of old scriptures. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
