By Michael A. Ervolini

PHI Learning, 2016. Softcover. Book Condition: New. First edition. Description: Portfolio management is a tough business. In a series of short, accessible chapters, the author investigates a range of topics from psychology and neuroscience, describing their relevance to the challenges of portfolio management. Finally, the book offers seven ideas for improving. These range from maintaining an investment diary to performing rudimentary calculations that quantify basic skills; each idea, or "project," helps managers...
