Stoddard s Lectures, Vol. 3 of 10: Illustrated and Embellished With Views of the World s Famous Places and People, Being the Identical Discourses Delivered During the Past Eighteen Years Under the Title of the Stoddard Lectures It is now nearly four hundred years since the brave discoverer, Magellan, first sailed around the world. Yet, till comparatively recent times, three years were necessary to complete the circuit. To-day, some Phineas Fogg can put a girdle round the earth in less than eighty days, and messages are flashed to us from China and Ceylon in less than eighty seconds. The old-time spirit of adventure amid unknown scenes, which thrilled the traveler of former years, has, therefore, well-nigh disappeared. Of all the surface of our globe, the Polar Seas alone still bid defiance to the approach of man; though every year the ultimate capitulation of those ice-bound areas, lit by the aurora, becomes less remote. The broad Atlantic has now dwindled to an ocean ferry. Europe is measured, not by weeks, but by hours. Constantinople, once so remotely Oriental, is but five days from London, - Cairo only six. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
