

Three-Year Course in Agriculture Announcements for 1912-13 (Classic Reprint) (Hardback)

By University Farm School

Forgotten Books, 2017. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Three-Year Course in Agriculture Announcements for 1912-13 The course in mathematics begins with a study of advanced arithmetic, and continues With selected work in algebra, plane geometry and trigonometry during the first two years. The instruction has a practical aim throughout, with many applications to farm problems in land measurement, etc.; common formulae in mechanics and building, ditch construction and other practical subjects. In the third year a brief study of some of the principles of physics prepares for an understanding of their applications in farm mechanics; for example, in farm implements and structures, in steam boilers, gas engines and motors; in problems of water supply and drainage, etc. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
