Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It has been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, alter the way I believe.

(Prof. Loyce Runolfsson Jr.)

THE TEXAS REPORTS CASES ADJUDGED IN THE SUPREME COURT VOLUME 14

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 82 pages. Original publisher: Washington : U. S. G. P. O. , 2010. LC Number: KF27 . B5 2009zk OCLC Number: (OCoLC)648793305 Subject: Financial institutions -- Government policy -- United States. Excerpt: . . . 11 ment the tools to restructure or wind down a failing systemically important firm in a way that mitigates the risks to financial stability and the economy and that protects the public interest. It also would provide the government a mechanism for imposing losses on the shareholders and the creditors of the firm. Establishing credible processes for imposing such losses is essential to restoring a meaningful degree of market discipline and addressing the too-big-to-fail problem. The availability of a workable resolution regime also will replace the need for the Federal Reserve to use its emergency lending authority under 13 (3) of the Federal Reserve Act to prevent the failure of specific institutions. Payment, clearing, and settlement arrangements are the foundation of the Nations financial infrastructure. These arrangements include centralized market utilities for clearing and settling payments, securities, and derivative transactions, as well as the decentralized activities through which financial institutions clear and settle transactions bilaterally. While these arrangements can create significant efficiencies and promote transparency in the financial markets, they also may concentrate substantial credit, liquidity, and operational risks and, absent strong risk controls, may themselves be a source of contagion in times of stress. Unfortunately, the current regulatory and supervisory framework for systemically important payment, clearing, and settlement arrangements is fragmented, creating the potential for inconsistent standards to be adopted or applied. Under the current system, no single regulator is able to develop a comprehensive understanding of the interdependencies, risks, and risk-management approaches across the full range of arrangements.
