Forgotten Books, 2017. Hardback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Industrial Waste Guides: Supplement D To Final Report to the Ohio River Committee, Ohio River Pollution Survey The eleven industrial waste guides presented, cover the principal types of industries found in the Ohio River Basin. Steel mills which contribute acid pickle liquors, certain chemical plants which contribute acid and organic materials, plastic and synthetic fiber manufacturing plants and textile plants other than cotton, are notable exceptions. Information has been collected on the wastes from these classes of industry but wide variations which make each plant unique, or time limitations, have prevented presentation of this information in the form of guides. Other industries generally mentioned in industrial waste discussions are not common to the Ohio River Basin. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
