THE PLUNDERED PLANET: WHY WE MUST--AND HOW WE CAN--MANAGE NATURE FOR GLOBAL PROSPERITY (PAPERBACK)

Oxford University Press Inc, United States, 2011. Paperback. Condition: New. Reprint. Language: English . Brand New Book. Paul Collier s The Bottom Billion was greeted as groundbreaking when it appeared in 2007, winning the Estoril Distinguished Book Prize, the Arthur Ross Book Award, and the Lionel Gelber Prize. Now, in The Plundered Planet, Collier builds upon his renowned work on developing countries and the world s poorest populations to confront the global mismanagement of natural resources. Proper stewardship of natural assets and liabilities is a matter of planetary urgency: natural resources have the potential either to transform the poorest countries or to tear them apart, while the carbon emissions and agricultural follies of the developed world could further impoverish them. The Plundered Planet charts a course between unchecked profiteering on the one hand and environmental romanticism on the other to offer realistic and sustainable solutions to dauntingly complex issues. Grounded in a belief in the power of informed citizens, Collier proposes a series of international standards that would help poor countries rich in natural assets better manage those resources, policy changes that would raise world food supply, and a clear-headed approach to climate change that acknowledges the benefits of industrialization while addressing the need for alternatives to carbon trading. Revealing how all of these forces interconnect, The Plundered Planet charts a way forward to avoid the mismanagement of the natural world that threatens our future.
