Exact facsimile of the original edition, not reproduced with Optical Recognition Software. (c)New Foreword Martino Publishing. This volume contains a full and representative statement of Max Weber s sociological theory, drawn from important publications never previously translated. The book opens with a discussion of the analytical methods of sociology and an application of these methodological conclusions to the broadest classification of social relationship and groups. Nearly half the volume is devoted to a further elaboration of this scheme in the field of economic activity. The typology is copiously illustrated with material from many periods of history and parts of the world. Chapters include: The Fundamental Concepts of Sociology Sociological Categories of Economic Action The Types of Authority and Imperative Co-ordination The Transformation of Charisma in an Anti-Authoritarian Direction Social Stratification and Class Structure.
