

Sherman Invades Georgia Planning the North Georgia Campaign Using a Modern Perspective

By John R. Scales

Naval Inst Pr. Hardcover. Book Condition: New. Hardcover. 213 pages. Dimensions: 9.0in. x 6.0in. x 0.8in. A longtime Special Forces officer with a Ph. D. in systems engineering presents a new perspective on one of the legendary campaigns of the Civil War, General William T. Sherman's invasion of Georgia. Unlike most Civil War books that either treat individual battles and campaigns in a historical sense and give short shrift to planning, or study campaign planning with snippets from various campaigns to document specific features, General John Scales' book takes advantage of modern planning techniques to fully examine what went into the Georgia campaign. He has limited the information in his book to that possessed by General Sherman at the time, as documented in his correspondence during the campaign and not in his after-the-fact reports and autobiography. Laid out in chapters that follow the format of an estimate of the situation, this book doesn't simply recount the facts or attempt to provide a definitive history - other books do that - rather it offers a narrative of the campaign that illustrates a logical decision-making process as formulated in modern times. Published in cooperation with the Association of the United States Army, the...

Reviews

This ebook can be worthy of a read, and much better than other. I have read and I am certain that I am going to plan to go through again once again in the future. You may like just how the writer composed this book.

-- Mr. Grant Stanton PhD

A whole new eBook with an all new standpoint. It is actually really fascinating through reading through time period. You won't truly feel monotony at anytime of your own time (that's what catalogues are for relating to when you request me).

-- Claire Bartell
