Excerpt from Haeckel s Genesis of Man, or History of the Development of the Human Race: Being a Review of His Anthropogenie, and Embracing a Summary Exposition of His Views and of Those of the Advanced German School of Science HE three papers constituting this little 570671217? Were originally contributed to the penn monthly, and appeared in the April, May, and July numbers of that magazine for 1877. As the work which it was their more especial object to review has not yet been placed before the non-german reading public, no apology is offered for their reproduction in separate form. In view, however, of the popular interest which the views of Prof. Haeckel have since called forth, and which seems to be still increasing, it was thought an opportune moment for laying before the general public this condensed exposition of the thought and labors of the great naturalist and philosopher.
