In reality, we should run around shouting: "Were #36" in math, "Were #28" in science, and "Were #24", in reading. The modern world is moving at an incredibly fast pace and we are falling behind other industrialized and 3rd world countries when it comes to producing world class talent. We are living in a country where we need to support 1.2 million high school dropouts every year! American kids are no longer simply competing with kids down the street or half way across the country for great jobs. Global competition is unrelenting and parents need to train their kids to thrive in the new global economy. Larry Temple delves into our new world offering tips and advice on how to ensure your child thrives in the 21st century.
