ADVANCES IN AGRONOMY: VOLUME 51 (HARDBACK)

Elsevier Science Publishing Co Inc, United States, 1994. Hardback. Condition: New. Language: English . Brand New Book. Volume 51 is a compilation of cutting-edge reviews written by leading crop and soil scientists. Several chapters emphasize ecology and the environment: conservation tillage with emphasis on ecological approaches to soil management, especially its effects on the environment, soil physical and chemical properties, and surface mulch, nutrient, and pest management; a complete and contemporary review on integrated pest management, ecological and environmental considerations,...

Reviews

A brand new e book with an all new perspective. It can be rally fascinating through reading period. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Kobe Streich I**

I actually started looking at this publication. It normally is not going to expense a lot of. You are going to like the way the author publish this book.
