CreateSpace Independent Publishing Platform. Paperback. Condition: New. This item is printed on demand. 24 pages. Dimensions: 11.0in. x 8.5in. x 0.1in. USCIS granted U. S. citizenship to at least 858 individuals ordered deported or removed under another identity when, during the naturalization process, their digital fingerprint records were not available. The digital records were not available because although USCIS procedures require checking applicants fingerprints against both the Department of Homeland Securitys and the Federal Bureau of Investigations (FBI) digital fingerprint repositories, neither contains all old fingerprint records. Not all old records were included in the DHS repository when it was being developed. Further, U. S. Immigration and Customs Enforcement (ICE) has identified, about 148, 000 older fingerprint records that have not been digitized of aliens with final deportation orders or who are criminals or fugitives. The FBI repository is also missing records because, in the past, not all records taken during immigration encounters were forwarded to the FBI. As long as the older fingerprint records have not been digitized and included in the repositories, USCIS risks making naturalization decisions without complete information and, as a result, naturalizing additional individuals who may be ineligible for citizenship or who may be trying to obtain U. S. citizenship fraudulently. This item ships from La Vergne, TN. Paperback.
