THE MISSING KEYS (PAPERBACK)

Fulton Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Most victims of trauma experience at least some symptoms of posttraumatic stress (PTS): intrusive thoughts, flashbacks, anxiety, vigilance, disturbing dreams, avoidance of reminders, survival guilt, anger issues, self-medication (usually with alcohol or other substances), sexual issues, etc. About 20 percent of trauma victims develop posttraumatic stress disorder (PTSD), i.e., experience many of the above symptoms for a prolonged period of time. Individuals with PTSD symptoms are often given advice from friends and family members. Dr. Gino has more than twenty-five years of experience working with trauma victims. He assessed and helped war veterans at the Honolulu VA Hospital for almost fifteen years. He has helped trauma victims in private practice for the past ten years, has helped addicts for the past thirty-two years, and he is a software developer. The Missing Keys integrates his fields of expertise and...
