Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Community Facilities Plan, Red Springs, N. C The Community Facilities Plan is one of a series of studies undertaken by the Town of Red Springs to aid in the maintenance of a desirable community and to guide its future growth and development. Other studies are: Population and Economy, Land Use Analysis, Land Development Plan, and the Public Improvements Program. Each of these is a useful tool to aid town officials, businessmen, and residents in making decisions concerning the town s development and their own future. The Community Facilities Plan is concerned primarily with services offered by the Town of Red Springs. Some services offered by private and semi-public organiza tions as well as other governmental agencies are also included. The first step in developing the plan is the review of the existing situa tion. The existing situation is then compared to national, state or local standards for the services. Such standards are explicit statements of national, state, and local policy. However, current levels of service may be considered as the implicit statements of present or past operating policies. Standards as well as operating policies often need revision. An evaluation of current conditions gives an indication of current deficiencies. Forecasts and projections are necessary to estimate future needs and then plan for their provision. Recommendations are made to correct current deficiencies and meet future demands. These recommendations are included for both operating procedures and capital improvements. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
