Forgotten Books. Paperback. Condition: New. 106 pages. Dimensions: 9.0in. x 6.0in. x 0.2in. Excerpt from Thresholds Environmentalists across the gamut of movements widely quote Henry David Thoreau's writings in the service of a call to ecological action. In *Wildness* is the preservation of the world - a dipped quote from the short essay *Walking* - has become a rallying call to ethical stewardship, management, and preservation of some ill-defined nature. This reading of Thoreau fundamentally misappropriates his definition of wildness and the spirit in which he uses the word. It confuses wildness with wilderness and assumes an allegiance to an objective environmentalist end. In fact, Thoreau's ideas are more in concordance with the concept of the rhizome, smooth space, and nomadism as proposed by Gilles Deleuze and Felix Guattari. Thoreau's writing deserves a place in modern discourse in the hope that his wildness may reveal a method for reading, writing, and understanding nature and the cultural landscape. This wildness, a form of extreme self-consciousness, requires what Peter Fritzell calls a tolerance for ambiguity that is very difficult to sustain. It is, in essence, a dedication to paradox, and even an occasional delight in uncertainty, that can be extremely unsettling. It is this ambiguity that *Denatured* hopes to investigate, Thoreau, *Walking*, and the Instantaneous Redefinition of Nature. In some sense, the act of walking as described by Thoreau embodies a worldview oddly placed in intellectual history. In the midst of the Enlightenment and at the dawn of the Industrial Revolution, Thoreau called for a dynamic understanding of nature that transcended the contemporary emerging discussion on environmental issues. Modern environmentalism, a product of the sensibilities of Pynchon and the romanticism of Muir, embraces Enlightenment conceptions of objectivity and rationality and finds itself mired in the twentieth-century discourse of social and power relations....
