INTERCELLULAR COMMUNICATION IN PLANTS

Wiley-Blackwell, UK, 2004. Hardcover. Book Condition: New. Dust Jacket Condition: No Dust Jacket. First Edition. 296 Pages. NEW. Intercellular communication in plants plays a vital role in the coordination of processes leading to the formation of a functional organism. The signalling systems must function at a local level to coordinate events of cellular differentiation, over long distances to coordinate developmental and physiological responses in different parts of the plant, and they must even operate between separate individuals for example, to...
