

Essentials of Pharmacology for Anesthesia, Pain Medicine, and Critical Care

By Kaye, Alan D. / Kaye, Adam M.

Book Condition: New. Publisher/Verlag: Springer, Berlin | This book provides a basic understanding of pharmacologic principles and clinical considerations for practitioners at all levels in anesthesiology, pain management, and critical care. It is an easy-to-read handbook designed to appeal to a wide audience. | In anesthesiology, pain medicine, and critical care, practitioners at all levels need help to stay current with the continually evolving drug knowledge-base and trainees need tools to prepare for in-training and board exams that increasingly test their knowledge of pharmacology. This practical book is aimed at both readerships. It features a unique and practical chapter on the United States Food and Drug Administration (FDA) "black box" warnings that describe what safety precautions should be taken with commonly used drugs. The editors and contributors are pharmacology experts representing a cross-section of clinical specialties and institutions in the United States and include pharmacologists, pharmacists, as well as physicians. | Part I. Basic Pharmacologic Principles.- 1. Pharmacokinetics and Pharmacodynamics of Anesthetics.- 2. A Review of Mechanisms of Inhalational Anesthetic Agents.- 3. Pharmacokinetics, pharmacodynamics and physical properties of Inhalational agents.- 4. Principles of Total Intravenous Anesthesia.- 5. Perioperative Considerations in Pharmacology.- Part II. Drug Classes.- 6. Anesthetic Induction Agents.- 7....
