Springer. Hardcover. Condition: New. 220 pages. Dimensions: 9.7in. x 6.6in. x 0.8in. This book applies the concept of synchronization to security of global heterogeneous and hetero-standard systems by modeling the relationship of risk access spots (RAS) between advanced and developing economies network platforms. The proposed model is more effective in securing the electronic security gap between these economies with reference to real life applications, such as electronic fund transfer in electronic business. This process involves the identification of vulnerabilities on communication networks. This book also presents a model and simulation of an integrated approach to security and risk known as Service Server Transmission Model (SSTM). This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Hardcover.
