Reviews

A very awesome book with perfect and lucid reasons. It really is basic but shocks within the 50 percent of the book. Its been designed in an exceptionally easy way and is particularly merely right after i finished reading this ebook where in fact changed me, change the way i think.

Excerpt: .and management of the slaughterhouses, and the second to the administration of the inspection service. A MUNICIPAL OR CENTRAL SLAUGHTERHOUSE. It is both difficult and expensive to supervise slaughtering at a number of small, isolated establishments, each killing only a few head of animals a day, or perhaps slaughtering only once or twice or three times a week. It is therefore desirable to concentrate the slaughtering for each community into one place. There should be a public slaughterhouse under either municipal or private ownership, and in either case under official supervision. Municipal abattoirs are quite common in Europe and have been found to be an exceedingly satisfactory method of enforcing an efficient inspection, but such abattoirs are very few in this country. Aside from facilitating inspection and making it more economical, central abattoirs afford commercial advantages. They provide machinery, facilities, and-equipment such as are found in the large packing houses and which are not otherwise available to the small butchers. There is also economy in the cost of operation of a central abattoir as compared with the cost of a number of scattered places, and there is an opportunity to obtain revenue from by-products which are usually wasted at small establishments. It is preferable for the town to build and own the abattoir and to require all slaughtering to be done there, except where conditions are such as to justify private plants and where inspection is already in effect at such plants or can...
