GRIN Verlag GmbH Apr 2015, 2015. Taschenbuch. Book Condition: Neu. 211x151x3 mm. Neuware - Scholarly Research paper from the year 2015 in the subject Sociology - Methodology and Methods, grade: 'A', Atlantic International University (SOCIAL AND HUMAN STUDIES), course: EDUCATION, language: English, comment: Well argued, abstract: The course is designed to define research, evaluate the significance of research in education and provide an in-depth approach of qualitative and quantitative research framework, as well as examining into the empirically oriented data findings. Research is a term which refers to seeking for new constructive information. Building on the same note, someone who goes into the field of inquiry, will possibly find response on the inquiry issues. Such research direction injects a link towards the purpose of expecting exposition of information. In the common language, research refers to the search for knowledge. For instance, Kothari (2011) defines research as an art of scientific investigation. The collaborative learning design over research is of course centralized on the social structures. Various research learning theories focuses on these social structures by allowing investigation on the activities and actions of different group entities with the choice of a single or multiple investigative variables. 28 pp. Englisch.
