Business Professionalism: A Blueprint to Help You Analyze, Equip, Plan, and Succeed in the Workplace (Paperback)

By Bruce Todd Strom

Createspace, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.We all look at the appearances and behaviors of business people and say I wish that person were more professional. What does that mean? The reader will find a business professional framework for self-reflection and growth. We all engage in work and personal ventures that result in measurable outcomes and goal oriented behavior. How do we evaluate those activities in terms of effectiveness and efficiency - efficacy? And, in what context? This book provides a systematic framework for a personal development process that gives for-profit and not-for-profit business professionals at any level a blueprint for success in the dynamic business climate of the early 21st century. That process includes assessment and continual life growth and improvement. It focuses both on what is (reality) and what could be (theory/ideals). It is intended to fill a toolbox full of materials with resources that can formally and informally be used in business professional development. Business professionalism builds from the ground up. It depends on a dialogue between stakeholders. After you ve learned the Four Pillars, how can you share them with your colleagues? This book will...

Reviews

Extensive information for book fans. It is written in basic words and never hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- Otis Wisoky

This publication is great. It is full of wisdom and knowledge You will not really feel monotony at any time of the time (that's what catalogs are for relating to when you ask me).

-- Dr. Everett Dicki DDS
