## STRUCTURE OF THE EARTH AND THE MOON ON THE SEISMIC DATA

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | The results of the interpretation of the data of seismological networks | Based on record section seismogram of earthquakes, registered global network draw travel-times of refracted and reflected short longitudinal seismic waves propagating in the mantle and core of the Earth. For these travel-times obtained the velocity distribution in the mantle and core are in good agreement with the observed data. Velocity curve for the Earth's core is well explained by the...
