## ANALYSIS OF POTATO PRODUCTIVITY IN SRI LANKA

Analysis of Potato  
Productivity in Sri Lanka

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Potato is considered as one of the staple foods in the world. Although potato is a highly profitable crop, the average productivity in Sri Lanka is about 12 t/ha which is comparatively lower than potato -producing countries in Asia. Productivity is determined by several factors; quality of seed potato, soil condition, fertilization, pest and disease management, rainfall etc. The objective of the work is to evaluate the potato productivity using multicriteria analysis...
