

Treatment of Biological Warfare Agent Casualties

By U. S. Department of Defense

University Press of the Pacific. Paperback. Condition: New. 120 pages. Dimensions: 10.9in. x 8.1in. x 0.4in. This publication serves as a guide and a reference for trained members of the Armed Forces Medical Services and other medically qualified personnel on the recognition and treatment of biological warfare agent casualties. Information contained in this publication may also be relevant for the diagnosis and treatment of patients with naturally acquired diseases or illnesses due to pathogens with BW potential. This publication: (1) Classifies and describes potential BW agents. (2) Provides procedures for collecting, handling and labeling, shipping, and identifying potential BW agents. (3) Describes procedures for medical diagnosing, treating, and management of BW casualties. (4) Describes medical management and treatment in BW operations. The treatment modalities contained in this manual differ from standard textbooks in that they apply to BW agent exposures. The method of exposure for most BW agents is by inhalation; whereas, the endemic disease exposure (if applicable) is by other means. Some are by ingestion, some by arthropod bites, and others by dermal contact with the agent. This does not preclude service members becoming BW casualties by these means. This item ships from multiple locations. Your book may arrive from...

Reviews

This publication may be really worth a go through, and a lot better than other. It really is written in simple terms and never difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Natalie Abbott**

This book will not be simple to get going on reading but extremely exciting to read through. Yes, it can be playful, still an interesting and amazing literature. I am very easily could possibly get a delight of reading a written book.

-- **Rene Olson**
