BEWEGUNGSGRÖßENERFASSUNG IN MAGNETGELAGERTEN ANTRIEBEN MIT BERÜHRUNGSLOSEN MAGNETISCHEN SENSOREN

Shaker Verlag Dez 2010, 2010. Buch. Condition: Neu. Neuware - These days active magnetic bearings are mostly used in large drives or special fields like vacuum or clean room technology. For the displacement detection of magnetically levitated rotors in high speed drives different types of sensor technologies are currently used. According to the respective operating conditions not each of these measuring systems is suitable. The static and dynamic transmission properties essentially define the performance of the magnetic bearing system. In...

Reviews

This book is indeed gripping and exciting. it had been writtern really perfectly and useful. Its been written in an remarkably basic way and is particularly only following i finished reading through this ebook through which in fact changed me, affect the way i think.

-- Royce Heathcote

Great e book and useful one. Of course, it really is engage in, continue to an amazing and interesting literature. You wont sense monotony at anytime of your time (that's what catalogues are for regarding if you request me).

-- Prof. Flavie Moore Jr.
