Forgotten Books, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from China s Loan Negotiations: Address It is the purpose of this paper to explain, if possible, three things: 1st, the significance of Chinese loans; 2nd, the importance of securing and retaining an American interest therein, and 3rd, the peculiar difficulties encountered in the recent loan negotiations. Dr. Arthur H. Smith, in that able and interesting work Chinese Characteristics, pointed out that those who, understanding the vernacular, walk in China s streets will hear the passerby talk of little save money. As it has been with the daily life of the people so it is today with the political life of the nation. The question of money is all important. For the last ten years, and especially in the past twelve months which witnessed China s wonderful transformation from the oldest empire to the youngest republic in the world, there has been an incessant discussion of Chinese loans. China s Loan history may be divided into four periods - The first, immediately after the China-Japan War-when funds were secured from the abroad to pay the indemnity exacted by Japan at its conclusion. The second, following the so called leasing years when the great powers encouraged their bankers to finance railway construction in the regions which they had marked out as their spheres of special interest, and when besides acting as the politico-financial agents of their Governments, these bankers secured for the industry of their respective countries the orders for the materials required.
