

Archives of Ophthalmology (1879-1950) Volume 25

Filesize: 1.24 MB

Reviews

This pdf will not be simple to start on reading through but extremely enjoyable to see. I have read and i also am sure that i will planning to read through again once more in the foreseeable future. You wont really feel monotony at whenever you want of the time (that's what catalogues are for relating to if you request me).

(Mallory Kertzmann V)

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 110 pages. Original publisher: Washington, D. C. : U. S. Govt. Accountability Office, 2008 OCLC Number: (OCoLC)277143995 Subject: Genetically modified foods. Excerpt: . . . 1. The GE crop species is not listed in regulation as a noxious weed or considered by the Administrator of USDAs Animal and Plant Health Inspection Service to be a weed for the area of release. 2. The introduced genetic material is stably integrated in the crops genome. 3. The function of the introduced genetic material is known and does not result in plant disease. 4. The introduced genetic material does not cause the production of an infectious entity, produce a substance that is likely to be toxic to nontarget organisms, or produce a product intended for pharmaceutical or industrial use. 5. The introduced genetic sequences do not pose a significant risk of the creation of a new plant virus. 6. The crop has not been modified to contain certain genetic material from animal or human pathogens. USDA regulations also require that activities conducted under a notification meet certain performance standards. Namely, regulated GE crops must be handled in such a way that they do not persist in the environment or get mixed with nonregulated plant materials. A general technique for avoiding mixing is to isolate the GE crops from non-GE crops, and USDA has described in guidance documents a number of steps that developers may take, such as bagging or netting the plants to contain the seeds, planting border rows, or using sterile male varieties. Permit: The USDA permit process is for those GE crops that cannot be introduced under notification, such as plants engineered to produce pharmaceutical or industrial compounds or modified with genetic material that causes the production of an...
