iUniverse, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Dogs change our worlds by giving unconditional love and sharing our lives. In these stories dogs have identities and personalities. They are more than companions and friends. They are actors playing center stage, entering our minds and hearts and becoming unforgettable. Each dog owner discovers that a dog becomes part of the family history, part of the stories told around the table, and sometimes the only thing that touches our emotions. During a dog's lifetime a dog finds ways to entertain, dismay, or love the humans around them. A dog can't be ignored. Perhaps dogs are highly regarded because they don't have hidden motives. They love you or dislike you. Life is that simple. Once their decision is made they don't forget their friends or enemies. In my opinion most dogs are angels sent to bring unconditional love into the world and to battle the dark forces. As you read these stories decide for yourself if dogs change our lives for the better. You may have known dogs like Belle that can do so many things....
