## AEROASSISTED ORBITAL TRANSFER GUIDANCE AND CONTROL STRATEGIES LECTURE NOTES IN CONTROL AND INFORMATION SCIENCES

To download **Aeroassisted Orbital Transfer Guidance and Control Strategies Lecture Notes in Control and Information Sciences** eBook, make sure you access the web link under and save the document or gain access to other information which might be relevant to AEROASSISTED ORBITAL TRANSFER GUIDANCE AND CONTROL STRATEGIES LECTURE NOTES IN CONTROL AND INFORMATION SCIENCES book.

Springer. Paperback. Condition: New. 182 pages. Dimensions: 9.2in. x 6.1in. x 0.5in. The concept of aeroassisting for orbital transfer has been recognized as one of the critical technologies for pioneering the space frontier. In space transportation systems, aeroassisting (or aerobraking), defined as the deceleration resulting from the effects of atmospheric drag upon a vehicle during orbital operations, opens new mission opportunities, especially with regard to the establishment of the permanent Space Station Freedom and space explorations to other planets such as Mars. The main areas of research reported in this monograph are atmospheric entry problem by the method of matched asymptotic expansions, coplanar and non-coplanar orbital transfers with aeroassist technology, orbital plan change with aerocruise, and neighbouring optimal guidance. A special feature is the bibliography which will provide the reader with a literature status for further research. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
