

## Bio-inspired Optimization Methods : modeling, design, inverse problem and robust optimization of a representative mechanical system

Filesize: 2 MB

### ***Reviews***

*Extensive guideline! Its such a great go through. It is definitely basic but surprises in the 50 % of the pdf. It is extremely difficult to leave it before concluding, once you begin to read the book.*

*(Fernando Hahn)*

## BIO-INSPIRED OPTIMIZATION METHODS : MODELING, DESIGN, INVERSE PROBLEM AND ROBUST OPTIMIZATION OF A REPRESENTATIVE MECHANICAL SYSTEM

[DOWNLOAD](#)

LAP Lambert Academic Publishing Dez 2015, 2015. Taschenbuch. Condition: Neu. This item is printed on demand - Print on Demand Neuware - In this book the development of multi-objective optimization strategies based on the bio-inspired optimization algorithms (Bees Colony Algorithm, Firefly Colony Algorithm and Fish Swarm Algorithm) in association with two particular operators, i.e., the Pareto Dominance Criterion and the Crowding Distance Operator is presented. The proposed methodology is applied to optimal design of a two degree-of-freedom nonlinear damped system constituted of a primary mass attached to the ground by a linear spring and the secondary mass attached to the primary system by a nonlinear spring. In addition, the solution of an inverse problem and the robust optimization problem are also addressed. 80 pp. Englisch.
